PROFESSIONAL EXPERIENCE

- **Prague Institute of Planning and Development** ES6 (React.js 16.8+, Node.js), Kubernetes/Docker
Fullstack Development & DevOps February 2022 – Present
 - Created React/Node web application to facilitate process of city planning in Prague.
 - Rewriting internal application to the same React/Node (Router, Redux, Express) stack.
 - Working on dockerization - exploring best self-hosted cloud solution, be it OpenShift/VMware Tanzu/plain Kubernetes, helping others to port their applications to the K8s infrastructure.
- **Office of the Government of the Czech Republic** JavaScript (React.js), PHP, Python
Fullstack Software Engineer February 2020 – July 2021
 - Created React web application for on-line publishing of annual scientific results of the Czech Republic providing numerous interactive browsing modes and filtering options across fields and institutions.
 - Lightweight REST API in PHP for React frontend, including data aggregation into ZIP files and data preparation for graphs in CSV format; all with extensive error handling.
 - Dataset preprocessing pipeline for web in Python consists of converting results from PDF to PNG, zipping certain reports for static download-only section and creating build script of SQL database for downloading underlying CSV tables creation.
- **SwimmPair for TJ Prostějov** PHP, Javascript, C#.NET (Xamarin)
Fullstack Software Project October 2018 – November 2019
 - Created model and web application for managing swimming competitions with custom drag&drop built via DOM API and with AJAX backing for smooth refreshless experience; situation-specific media queries for mobile view and print style.
 - Model written in PHP consists of object classes and approx. 80 API functions utilising one or more database stored PROCEDURES (with loop calls, db locks, checksum controls), loading and storing data.
- **ELAI Prague** Wordpress, PHP, CSS
Web Developer February 2016 – December 2016
 - Innovation Week 2016 & Global Entrepreneurship Week Prague 2016 - Wordpress website, plugin customization, designing static presentation, workshop administration(30+), mailing functionality.
- **Freelance** Wordpress, PHP, JavaScript, CSS
Websites for various customers or NGOs (10+) since 2010
 - jaromirstetina.cz (2015) - Member of European Parliament; social media integration.
 - c-d-s.cz (2013) and heart-of-europe.org (2014) - Czech Debate Organization tournaments operations; Heart of Europe Debate Tournament 40+ international teams registrations/payments/calendar & stuff.
 - autoservispolena.cz (2017) - Car repair and maintenance business; contracted with graphic professional.

PROGRAMMING SKILLS

- **Programming Languages:** C#, Python, C++, Java, JavaScript, Bash
- **Frontend:** React 16.8 (+tools), HTML5, CSS3, DOM, Bootstrap, Xamarin, Qt
- **Backend:** Node, PHP, SQL, .NET, Linux, Docker

EDUCATION

- **Bachelor's Degree in CS (in progress)** Charles University – Prague, Czech Republic
Practical projects in programming courses:
 - C++ course - Stock analysis tool with UI plotting via Qt Framework,
 - C#.NET course - UDP protocol for application data transfers,
 - Java course - Web scraper using Selenium; different export options (html+css/csv/xml),
 - Indiv. project - REST API (objects and lists utilisitng HTTP GET/POST/PUT/DELETE).
